Suddha, I think you should procure any blank water you will need for the next round of sampling and get a sample of it to the lab to assure it is not contaminated. This should be done in time to procure another supply of water if it becomes necessary.

thanks
Rich

Suddha,

Here's the most up-to-date version that has been send to HQ for review. You should refer to this, for preparation of the sampling plan by Friday.

Yes, include plans for both tap and wellhead sampling.

Call me if you have questions.

Subject: Proposal for resampling at Dimock

As a follow-up to yesterday afternoon's conference call with Mathy and others, attached is the R3 proposal for resampling homes at Dimock. Please contact OSC Rich Fetzter at (215) 341-6307 with questions.

Please note we have begun to develop a sampling plan based on this proposal and will make adjustments to that plan as it is drafted based on your input to this proposal. We hope to have a sampling plan to the EU for review next week so we can begin resampling sometime the week of 5/7/12. Thanks, dennis.
